

**PROFESSIONAL  
LONGARM QUILTING**

Member in good standing of:

*International Association of Professional  
Quilters*

*International Machine Quilters Association*

I gladly accept internet/mail order quilting. Shipping is at customer's expense. I accept personal check, money order or PayPal. Please make checks payable to "Created by CJ".

50% of payment is required when you ship (not required for drop offs) your quilt and the balance will be due when the quilt is completed.

Please call or email when you ship your quilt. Please place your quilt in a plastic bag for shipping, and pin your name and address to the quilt.

Like many of you, I have a mad love affair with quilting. I adore every bit of it, from the fabrics, to the designs, to the quilting. I know that you too, put so much of yourself into your quilt project, and want to have it expertly finished!

My philosophy is to treat your quilt as if it were my own, and my goal is to provide you with a finished quilt that you will be proud of and will cherish for years to come. I quilt on a hand guided APQS Millennium stitch regulated longarm in a smoke free studio.

My specialty is edge to edge quilting, and I have a large selection of designs to choose from.

**Edge to Edge Quilting** - Meanders, Pantographs, designs that flow from edge to edge.

Baptist Fans, Swirls, Crosshatching (not stitched in the ditch), etc are all considered edge to edge.

My studio is smoke free.

# LONGARM QUILTING SERVICES

Please do not embellish your quilts until after they have been quilted. (i.e. buttons, ribbons, etc.). Please press your quilt seams flat!

Trim all loose threads from the back. Loose threads may show through the top or back.

Back stitch any seams that come to the edge of the quilt top, and if you have any bias edges on the perimeter of the quilt, please stay stitch them with a 1/8 inch seam. Otherwise, your seams may come undone when tension is put on the quilt while mounted to the Longarm frame.

Do not baste quilt. Bring, or send, layers separately.

Cut the backing and batting (if providing your own) 6-8 inches larger than your top on **all sides**, and trim so that the fabric is square.

The backing **must be square**, so it can be pinned to the leaders on the Longarm frame.

For more in depth information on preparing your quilt top to be professionally quilted, visit my website:
